## Dimensions and noise level

Length mm	1510
Width mm	710
Height mm	1063
Net Weight kg	424
Gross Weight kg	436
Sound pressure at 7 mt dBA	63.00

### Data reference

Standard reference conditions temperature 25°C, altitude 1-1000m asl, relative humidity 30%, atmospheric pressure 100 kPa (1 bar), power factor 0.8 lag, balanced load - non distortional. Fuel consumption is nominal and refers to specific weight 0.850 gr/lt. Power performance data as quoted can be obtained after the initial running-in period of the engine, during which one has to follow the instructions of the engine manufacturer as stated in the use and maintenance manual of the specific engine. The tolerance shown by the engine manufacturer is +/- 5%. Sound power values refer to free field conditions: the installation site may influence the values. Dimensions, weights and other specifications contained in the technical data sheet and related attachments are nominal, subject to tolerances and refer to the model with standard equipment; any optional and additional equipment/accessories can modify weight, dimensions, performance.P.R.P. Prime Power-Continuous power at variable load: The power that a genset can supply in continuous service at a variable load for an unlimited applicable overload must be less than the percentages stated by the Manufacturer.L.T.P. Limited-time running power-Limited power: The maximum power that a genset can supply for a limited time respecting the maintenance intervals established in the environmental conditions stated by the Manufacturer according to ISO 8528-1. The number of hours per year is stated by the Manufacturer. Overload is not permitted.\*For reasons of transport and/or storage, liquids (oil and antifreeze) and batteries might not be included in the delivery.

## **General features**

Silent generator with following specifications:

#### Frame:

- Heavy duty fabricated welded base plate with high quality steel UNI S235 JR

- Heavy duty rubber anti-vibration mountings
- Fuel tank with drain plug and retention basin
  Base with bilateral forklift pockets allow lifting from all sides

#### Canopy:

- No.4 Large doors for easy access for service and maintenance
  Electro-galvanized sheet DC01+ZE25/25 (EN 10152: 2009)
- High precision sheet cutting with nitrogen laser technology to avoid oxidation
- Sandblasting and cataphoresis treatment of intake / exhaust grids - Weatherproof sealed joints
- Lockable handles in each door
- RAL 9010 "orange peel" specific powder coat paint for outdoor usage
- Coolant refilling specific hatch
- Fuel filler outside enclosure
- Central lifting hook

Ecological Sound foam: 100% Recyclable, fire-proof self-extinguishing class1 fire-reaction compliant washable

#### Muffler:

Supersilent, Residential type, integrated in the canopy - With aluminum coating

#### **Control Panel:**

- Metal Control panel with protective back cover

All units and components are prototype tested, factory build and production tested. A specific control procedure during the several stages of production ensures long life and reliability.
